Silver Anniversary Message

On behalf of Pamet Northern California, it is with great honor and pleasure to announce that on May 3rd, 2014, we have initiated to celebrate our twenty-five years of success, commitment and contributions to American Health Care. I would like to express my sincere appreciation to all our distinguished guests, our delegates from different chapters of PAMET-USA, Inc. who traveled far for this occasion, as well as, all of our colleagues and members, families and friends.

Please join me in celebrating this significant milestone for PAMET Northern California - on its 25th years of service. On this Silver Anniversary, we look back at the last 25 years to see the significance our Chapter has contributed to the success of our members and renew our commitment for the future. In this twenty-five years, we have become a successful group in the field of Medical Technology and continue to demonstrate the unity that originally brought us together.

Pamet Northern California was formed on April 1, 1989 with a few members and over the years has grown and evolved tremendously. We continue to serve the unlicensed medical technologists and assist them to build their own success. The number of our continuing education seminars has increased due to demand from our members and helps support the renewal of their licenses.

As a leader in this organization, I am proud to share our remarkable history. It has always been our members who have come together to support us, and continue to foster our growth, stability and evolution. Over the years, I have seen the officers' dedication to ensure the delivering successful results, the Board's direction and commitment to this organization, and its members and supporters perpetuating their belief and confidence in us. Our gratitude extends to this collective of members for the success they have created. I am confident that the legacy PAMET Northern California will leave to the generations to come will be a lasting tradition of dedication and unity in the pursuit of continued success within our profession.

In closing, I would like to convey how proud I am to be a part of a community that strives for betterment of its members. Please know that the Pamet Northern California family will always be here for you. As we celebrate, let us cherish all the sweet memories we have shared all these years.

May Our Lord continue to bless Pamet Northern California and its members.

Sincerely,

*L Jillian Mendoza
President
Pamet Northern California*
